

**Project Title:**

**Development and test of software to be used for JEM-EUSO simulation and event reconstruction.**

**Name :** Jose Alberto Morales de los Rios Pappa    **Project leader:** Toshikazu Ebisuzaki  
**Affiliation:** Computational Astrophysics Laboratory  
Advanced Science Institute    Wako Institute

---

**Description of the project**

1. Development, testing and debugging of JEM-EUSO mission software.
2. No large calculations or CPU time has been needed up to now.
3. I have been using my RICC account only to access internal network using VPN.
